DETAILED ACTION

Claims 8-24 are pending and have been examined. This action is non-final.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 8-21 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Independent claims 8 and 16 are directed toward the unpatentable subject matter of non-functional descriptive material in non-embodied computer files. The computer files should be stored on the recited "computer-readable medium". Appropriate correction is required.

Claims 22-24 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Independent claim 22 is directed toward the unpatentable subject matter of "software". Appropriate correction is required.

Response to Arguments

Applicant's arguments with respect to claims 8-24 have been considered but are moot in view of the new ground(s) of rejection.
